

COSC 316 - Project Proposal (2)

Team Members: Bailey Mawhinney, Kadin Oake, Filip Shakalau

App Name: TBD

Features:

- Given a pattern of buttons (colors/...) representing a key, the player has to attempt to match it within a time limit by tapping their group of buttons (alternate between a set of valid colors (and shapes?, ...).
- A timer or clock
- Different levels/difficulties
- Gives star rating based on how fast you match the pattern
- Simple menu UI to choose level/difficulty
- Slide in/out animations
- Transition animations (switch from menu view to game view)

Technologies:

- **Swift** for frontend code
- **SwiftUI** for the User Interface implementation
- **GitHub** for collaborating
